SUBJECT: [redacted] b6 b7C
IS-R (STUDENT)

ReBslet, 6/28/67.

There are enclosed five copies for the Bureau, three for Newark and two for New York of a LHM dated and captioned as above.

The interview of Dr. LUIGI GORINI was conducted by SAs [redacted] and [redacted] b6 b7C

During this interview Dr. GORINI advised that he and his wife traveled to the Soviet Union during 1961 to attend the 5th International Congress of Biochemistry which was held in Moscow, and was where they spent five days. He stated that both during and subsequent to this Congress, neither he nor his wife received any requests from any Soviets. It is to be noted that both Dr. GORINI and his wife are involved in the field of Biochemistry and that at the present time Dr. GORINI is head of the Biochemistry Laboratory at Harvard University Medical School.

During the interview of Dr. GORINI, which was handled as recommended in Bulet dated 2/28/67, he was given every opportunity to volunteer any Soviet contacts. He appeared very nervous at the outset of the interview;

It is felt that either GORINI or his wife could be UNSUB ROBPROF and that this interview did not definitely eliminate them. However, there are undoubtedly numerous other individuals who could qualify as a result of the limited identifying material available.

If GORINI or his wife has in the past cooperated in any way, or has considered such cooperation with the KGB, it is felt this interview will act as a deterrrent to such further action.

In this regard and for future consideration, the possibility exists that UNSUB ROBPROF could have been recruited and/or compromised during the 5th International Congress of Biochemistry held in Moscow during 1961.

It is recommended that no further investigation be conducted on GORINI and his wife at this time.

The LHM has been classified ~~"Confidential"~~ because it reflects [redacted] b7E the disclosure of which could adversely affect the defense interests of the nation.

DECLASSIFICATION AUTHORITY DERIVED FROM:
FBI AUTOMATIC DECLASSIFICATION GUIDE

[redacted] b6 b7C

On July 19, 1967, Dr. Luigi Gorini, 115 Longwood Ave., Brookline, Massachusetts, advised that he recalled a visit by a Soviet student from Princeton University to Harvard Medical School during January, 1967. He stated that as he recalled [redacted] was accompanied by a [redacted] also from Princeton University. Dr. Gorini noted that he saw very little of [redacted] on this one day visit and was not even sure whether he invited him to his house for the evening as is his custom with all foreign students. b6 b7C

He stated that it seemed the main purpose of the visit was for [redacted] to visit another Soviet student at Harvard, and he did not know the identity of this student. He also advised that he did not know whether subject met his wife since this would be contingent on his having visited his home. b6 b7C

Dr. Gorini stated [redacted] was a warm mild-mannered individual, soft spoken, and one who appeared not too aggressive. He stated that no requests were made of him by [redacted] and he has not heard from him since that time. b6 b7C

He also advised he had never had any requests made of him from any Soviet or Satellite persons at any time and should such occur he would immediately notify the FBI since he did not believe in persons like himself, who are scientists, becoming involved in furnishing intelligence information to other countries.
